

## Appendix 1      General information about the building (O2)

|                           |  |
|---------------------------|--|
| <b>Applicant</b>          |  |
| <b>Operations company</b> |  |
| <b>Building name</b>      |  |
| <b>Date</b>               |  |

| <b>Building type</b>   | <b>Year of construction</b>                        | <b>Area of the building (m2)</b>                                 | <b>Number of floors</b> | <b>Number of residential units or number of users/tenants</b> |
|--|--|--|-------------------------|---|
|  |  |  |                         |   |
| <b>Use profile of the building</b>   | [Describe here]                                    |  |                         |   |
| <b>Heating system</b>  | [Describe here]                                    |  |                         |   |
| <b>Ventilation system</b>  | [Describe here]                                    |  |                         |   |
| <b>Automation and control systems</b>                                      | [Describe here]                                    |  |                         |   |
| <b>Other relevant installations</b>  | [Describe here]                                    |  |                         |   |
| <b>Outdoor areas including playgrounds and courtyards</b>                  | [Describe here]                                    |  |                         |   |
| <b>Any supplementary buildings</b>   | [Describe here]                                    |  |                         |   |
| <b>Commercial spaces or other supplementary activities in the building</b> | [Describe here]                                    |  |                         |   |
| <b>Indoor operative Temperature (winter)</b>                               | <b>Indoor operative Temperature (summer)</b>       |  |                         |   |
|  |  |  |                         |   |
| <b>For offices and educational buildings</b>                               |  |  |                         |   |
| <b>Operational/work hours</b>  | <b>Operating hours for spaces with ventilation</b> | <b>Occupant load factor for each room (m<sup>2</sup>/person)</b> |                         |   |
|  |  |  |                         |   |
