

## Appendix 3 Basis for calculation of certified amount wood raw material

To verify that, at least 70% of the wood raw material, on an annual basis, shall be derived from areas where forestry operations are certified pursuant to a forestry standard and certification system that meet the criteria stated in Appendix 5 the:

- Table and calculation below, shall be filled in by the manufacturer of the compost bin.
- Documentation shall be submitted, to verify that certified wood is delivered to the manufacturer of the Nordic Swan Ecolabelled product. For example a copy of a contract and/or specified invoices.

Financial figures are not relevant and are not necessary to be cleared.

Supplier	Type of wood	Amount*	Geographical origin (country/ state and region/ province)	Forest standard. Type of certification management system (FSC, PEFC)	Quantity (%) of timber from certified forests used in the product

*\*Either volume or weight can be used as long as the same unit is used all through the table.*

The amount of timber derived from certified forests = timber derived from certified forests/total amount timber in the compost bin.
