

Appendix 15 Declaration from the manufacturer/supplier of Recycled fibre (AI0028 Fibers)

To be used in conjunction with an application for a licence for the Nordic Swan Ecolabel of Textiles, hides/skin and leather.

This declaration is based on the knowledge we have at the time of the application with reservations for new advances and new knowledge. Should such new knowledge arise, the undersigned is obliged to submit an updated declaration to Nordic Ecolabelling.

Manufacturer/supplier:
Please state the name of the fibre and trade name:
Please state the type of fibre:

O30 Recycled fibres, test for environmentally harmful substances	YES	NO
<p>All recycled fibres/raw materials (from natural and synthetic origin) shall not contain the following substances above the limits stated in table below.</p> <p>Exemptions apply to:</p> <ul style="list-style-type: none"> • Fibres with Oeko-tex class I certificate. • Material from PET bottles originally approved for food contact. • Fibres from chemically recycled polymers, if it can otherwise be documented that the process ensures, that the requirement limits are complied with. • Fibres used in the production of regenerated cellulose. • Fibres, where it can be documented that they originate from type I eco-labelled products. 		
Do you wish to declare in accordance with one of the exemptions above?!		
If yes, please state which exemption(s) are applicable:		
<p>If exemption is used, please attach:</p> <p>Routine showing that the area of declaration is fulfilled for each batch of recycled fibre produced.</p> <p>And</p> <p>For Fibres with Oeko-tex class I certificate: Oeko-tex 100 class I certificate</p> <p>For PET bottles: Documentation that only PET bottles are used.</p> <p>For chemically recycled polymers: Documentation showing that the recycling process ensures that the polymer do not contain the following substances above the limits stated in table below.</p> <p>For fibres from earlier type I ecolabelled textiles: Documentation for this.</p> <p>For fibres used in the production of regenerated cellulose and for mops: No additional information.</p>		
Is relevant above documentation attached?
