

Appendix 29 Declaration form AI0028 - fibre production - Wool and other keratin fibres

To be used in conjunction with an application for a licence for the Nordic Swan Ecolabel of furniture and fitments.

This declaration shall be filled out and signed by the **producer/suppliers of wool and other keratin fibres** for use in Furniture and fitments and textiles.

General information

Please state the name of the fibre and trade name:		
Please state which animal the wool originates from (sheep, camels, alpaca or goat):		
Please state which type of wool fibre (organic, recycled or conventional):		
Please state the name of manufacturer/supplier:		
	YES	NO
Is the fibre certified with the Nordic Swan Ecolabel or EU Ecolabel?	<input type="checkbox"/>	<input type="checkbox"/>
If yes, please state the licence number:		

O111 Ban on mulesing - ONLY relevant for merino sheep		
Surgical mulesing and mulesing performed using liquid nitrogen are not permitted on merino sheep		
	YES	NO
Have surgical mulesing and mulesing been performed using liquid nitrogen are not permitted on merino sheep?	<input type="checkbox"/>	<input type="checkbox"/>

Wood and other keratin fibres

O110 Wool and other keratin fibres
<p>Any wool and other keratin fibres used must originate from sheep, camels, alpaca or goats, and must be one of the following:</p> <ol style="list-style-type: none"> 1) certified organic wool* 2) recycled wool** <p>or</p> <ol style="list-style-type: none"> 3) conventional wool with documentation that the requirement below concerning pesticide content in the raw wool is fulfilled. <p><i>*Wool fibre that is certified as organic or transitioning to organic according to a standard approved in the IFOAM Family of Standards, such as Regulation (EU) 2018/848, USDA National Organic Program (NOP), APEDA's National Programme for Organic Production (NPOP), China Organic Standard GB/T19630. Also approved are GOTS and DEMETER and certification as "transitioning to organic cultivation". The certification body must have the accreditation required for the standard, such as ISO 17065, NOP or IFOAM.</i></p> <p><i>** Pre-consumer or post-consumer recycled raw materials, see the definition in the ISO 14021 standard. Both mechanically and chemically recycled fibres are included.</i></p>

1) Certified organic wool

Please attach:

Valid certificate showing that the wool in the Nordic Swan Ecolabelled product was organically cultivated in line with the standards in the requirement. If the supplier is the holder of GOTS certification, the requirement must be documented with a transaction certificate showing that the goods supplied are GOT certified.

2) Recycled wool

Please attach (a or b below):

a) Global Recycled Standard certificate showing that the raw material is recycled, or other equivalent certification approved by Nordic Ecolabelling.

or

b) Present documentation demonstrating that the recycled fibre was purchased as recycled and state the supplier:

3) Conventional wool

Pesticide content in conventional wool:

- The total content of the following substances may not exceed 0.5 ppm:

γ-hexachlorocyclohexane (lindane), α-hexachlorocyclohexane, β-hexachlorocyclohexane, δ-hexachlorocyclohexane, aldrin, dieldrin, endrin, p,p'-DDT and p,p'-DDD, cypermethrin, deltamethrin, fenvalerate, cyhalothrin and flumethrin.

- The total content of the following substances may not exceed 2 ppm: diazinon, propetamphos, chlorfenvinphos, dichlorfenthion, chlorpyrifos, fenchlorphos, dicyclanil, diflubenzuron and triflumuron

The requirement to test for pesticide residues does not apply if documentation can show which farmers produced at least 75% by weight of the wool or keratin fibres, and those farmers can confirm that the substances named in the requirement have not been used in the areas or on the animals in question.

Test method:

The tests must be performed in accordance with IWTO Draft Test Method 59: Method for the Determination of Chemical Residues on Greasy Wool or equivalent.

The analysis must be performed on raw wool before wet processing and the test report must be submitted with the application. Thereafter, the applicant must have a procedure in place for annual testing in line with the requirement and for ensuring compliance with the requirement. Nordic Ecolabelling must be informed if the requirement is not fulfilled.

Please attach:

- A test report showing that the pesticide requirement has been fulfilled.

- A written procedure showing how an annual test is performed in line with the pesticide requirement, along with annual in-house checks of compliance with the requirement.

or

- Documentation showing traceability to the farmers for at least 75% of the wool/keratin fibre and a confirmation from the farmers that they do not use the substances stated above.
