

Form 14 a, Recycled plastic in packaging and additional components

To be used in conjunction with an application for a licence for the Nordic Ecolabelling for Hygiene Products, generation 7, for requirement **O32**.

Name of the recycled plastic material:

Name of the polymer type:

Name of the producer of the recycled plastic material:

Name of the producer of the packaging/additional component:

O32 Recycled plastic		
<p>Is the plastic material recycled as defined in ISO 14021*?</p> <p><i>*Recycled material is defined in the requirement according to ISO 14021, which applies the following two categories:</i></p> <p><i>“Pre-consumer/commercial” is defined as material that is diverted from the waste stream during a manufacturing process. Excluded is reutilization of materials such as rework, regrind or scrap generated in a process and capable of being reclaimed within the same process that generated it.</i></p> <p><i>“Post-consumer/commercial” is defined as material generated by households or commercial, industrial, or institutional facilities in their role as end-users of a product that can no longer be used for its intended purpose. This includes materials from the distribution chain.</i></p>	<input type="checkbox"/> Yes	<input type="checkbox"/> No
<p>Is the recycle plastic traceable and certified with either EUCertPlast, RecyClass, Global Recycling Standard (GRS), Recycled Claim Standard (RCS) or ISCC?</p> <p>If yes, specify what certification scheme is used:</p>	<input type="checkbox"/> Yes	<input type="checkbox"/> No
<p>If no, please attach a declaration from the manufacturer of plastic granulate/product enclosed with documentation of supply chain all the way from the production site of recycled plastic until granulate/plastic product.</p> <p>Name of attachment:</p> <p>In addition, specify the primary sources of the recycled plastic (e.g. collected consumer packaging, residual waste from the manufacturer of xx product), as well as disclose the proportion of pre-consumer/commercial and/or post-consumer/commercial recycled plastic.</p> <p>Name of attachment:</p>		
<p>Does the recycled plastic raw material come from production lines that are EFSA* or FDA** approved as food contact material or marketed as compatible with these?</p> <p>* In line with Commission Regulation (EU) 2022/1616 on recycled plastic materials and articles intended to come into contact with foods.</p> <p>** In line with the Code of Federal Regulations Title 21: Food and Drugs, Part 177 – Indirect food additives: polymers.</p>	<input type="checkbox"/> Yes	<input type="checkbox"/> No

O32 Part a) Packaging and additional components		
<p>Does the recycled plastic contain polybrominated biphenyls or diphenyl ethers (PBB and PBDE), phthalates, organotin compounds, Bisphenol A, lead, cadmium, mercury or chromiumVI?</p> <p>Impurities up to 100 ppm are, however, permitted. See Table 1 in the Appendix 2 for further specification of substances.</p> <p>Please attach a test report or documentation that the material originates from known sources where it is substantiated that these kinds of substances are not present.</p> <p>Name of attachment:</p>	<input type="checkbox"/> Yes	<input type="checkbox"/> No

We declare that the requirements have been met and that the information provided is correct. In the event of any change to the composition of the product, that impacts the product's fulfilment of the requirements, a new declaration of fulfilment of the requirements is to be submitted to Nordic Ecolabelling.
