Appendix 2 Applicant declarations

1. Instructions:

- This appendix is completed and signed by the applicant or licensee. It may be used where the documentation requirement asks for a confirmation that a requirement is fulfilled.
- Read the complete requirement, including conditions and exemptions, before completing the declaration. Tick "Yes", "No" or "Not applicable" for each declaration point.
- Only select "Not applicable" where the requirement itself does not apply to the venue or the relevant activity. State the reason in the "Comments" column.
- Enclose any additional documentation explicitly required by the criteria. This appendix replaces only the requested confirmation, not separately required routines, descriptions, calculations, product lists, safety data sheets, agreements or other supporting documentation.
- If a declaration is completed by an external service or supplier, identify the service or supplier in Section 2 and submit one signed appendix per declaring party.

2. Applicant information

Applicant: _____

Date: _____

3. Declarations

Req.	Declaration	Yes	No	N/A	Comments
O2	The licensee conducts annual follow-up of the requirements.	☐	☐	☐
