

**Form 13 Polyamide**

For requirement 029

To be completed by the producer of polyamide.

Name of the polymer/plastic material:

---

Name of the producer of the polymer/plastic material:

---

**029 Polyamide**

Does the emission of nitrogen dioxide (N<sub>2</sub>O) to the air from the monomer production exceed 9 g/kg caprolactam (for nylon 6) or adipinsyre (for nylon 6.6), expressed as an annual average? ☐ Yes ☐ No

State the value: \_\_\_\_\_

Please attach detailed information and/or test report.

Name of attachment: \_\_\_\_\_
