

## Appendix 5 Declaration from the manufacturer of the primary packaging component

To be used in conjunction with an application for a licence for the Nordic Ecolabelling of dishwasher detergents and rinse aids.

This declaration is based on the knowledge we have at the time of the application, based on tests and/or declarations from raw material manufacturers, with reservations for new advances and new knowledge. Should such new knowledge arise, the undersigned is obliged to submit an updated declaration to Nordic Ecolabelling.

Producer/distributor
Part of the packaging (container, closure, label)
Packaging material (type of plastic, cardboard etc.) List all materials included in the packaging component and the percentage of each material.

<b>O15 Rigid plastic packaging: Design for recycling</b>	<b>Yes</b>	<b>No</b>
Is the component made of monomaterial? <b>If no</b> , please state material:	<input type="checkbox"/>	<input type="checkbox"/>
If made of polyethylene terephthalate (PET): Have any pigments/colours been added?	<input type="checkbox"/>	<input type="checkbox"/>
Has carbon black been added to the component?	<input type="checkbox"/>	<input type="checkbox"/>
Are any barriers used in the component?	<input type="checkbox"/>	<input type="checkbox"/>
Are fillers used in the components? <b>If yes</b> , please state the density of the packaging component [g/cm <sup>3</sup> ]:	<input type="checkbox"/>	<input type="checkbox"/>
Does the component contain metal parts? <b>If yes</b> , please specify the type of metal part:	<input type="checkbox"/>	<input type="checkbox"/>
For closures: Does the component contain silicone?	<input type="checkbox"/>	<input type="checkbox"/>

<b>O16 Labels for rigid plastic packaging: Design for recycling</b>	<b>Yes</b>	<b>No</b>
For non-polyolefin plastic labels applied to PE or PP containers: Please state the density of the label:  <i>Note: Density in g/cm<sup>3</sup>.</i>		
For labels applied to PET containers: Please state the density of the label:  <i>Note: Density in g/cm<sup>3</sup>.</i>		
Is there polyvinyl chloride (PVC) or other halogenated plastics present in the labels?	<input type="checkbox"/>	<input type="checkbox"/>
Does the label contain metal? <b>If yes</b> , please specify the type of metal part:	<input type="checkbox"/>	<input type="checkbox"/>

<b>O17 Flexible plastic pouches: Design for recycling</b>	<b>Yes</b>	<b>No</b>
Is the component made of monomaterial?	<input type="checkbox"/>	<input type="checkbox"/>
Are any barriers used in the component? <b>If yes</b> , please state barrier type and percentage (weight %):	<input type="checkbox"/>	<input type="checkbox"/>
Has carbon black been added to the component?	<input type="checkbox"/>	<input type="checkbox"/>
Are fillers used in the components? <b>If yes</b> , please state the density of the packaging component [g/cm <sup>3</sup> ]:	<input type="checkbox"/>	<input type="checkbox"/>
Does the component contain metal seals or other metal parts? <b>If yes</b> , please specify the type of metal part:	<input type="checkbox"/>	<input type="checkbox"/>
For closures: Does the component contain silicone?	<input type="checkbox"/>	<input type="checkbox"/>

<b>O18 Paper-based packaging: Design for recycling</b>	<b>Yes</b>	<b>No</b>
Does the packaging contain recycled material*?  <i>* Recycled material is defined in accordance with ISO 14021 in the following two categories. Material in the pre-consumer phase. Material that has been taken from the waste flow during the manufacturing process. The exception is the re-use of material that is generated in a process, e.g. waste that can be recycled within the same process that generated it. Material in the post-consumer phase. Material generated by households or by trade, industry or institutional facilities in their role as end-users of a product that can no longer be used for its intended purpose. This includes the return of materials from the distribution chain.</i>  <b>If yes</b> , please state the percentage recycled in the wood raw material that is used in the paper/board:	<input type="checkbox"/>	<input type="checkbox"/>
With reference to the percentage PCR in the wood raw material above: Is the remaining proportion of wood raw material covered by the FSC/PEFC control schemes (FSC controlled wood/PEFC controlled sources)?	<input type="checkbox"/>	<input type="checkbox"/>
Is the packaging a cardboard packaging?	<input type="checkbox"/>	<input type="checkbox"/>
Is the packaging a corrugated board packaging?	<input type="checkbox"/>	<input type="checkbox"/>
Is the packaging laminated with any barrier material? <b>If yes</b> , please state the barrier material type:  <b>If yes</b> , is the laminate on one side only?	<input type="checkbox"/>	<input type="checkbox"/>
Is there polyvinyl chloride (PVC) or other halogenated plastics present in the labels?	<input type="checkbox"/>	<input type="checkbox"/>
Does the packaging contain metal parts?	<input type="checkbox"/>	<input type="checkbox"/>
Is the packaging material solid coloured?	<input type="checkbox"/>	<input type="checkbox"/>

Place and date	Company name/stamp
Responsible person	Signature of responsible person
