

## Appendix 4 Ingoing substances in pens and rollerball pens

The chemical raw material's name and area of use:
Producer/supplier of the raw material:

### Framework for the declaration

The following definitions should be used for "ingoing substances": When referring to which substances the product contain, it means all ingoing substances in the product. Ingoing substances are defined as all substances in the chemical product – including additives (e.g. preservatives or stabilisers) in the raw materials/ingredients, but not residuals from production of raw materials). Residuals from production of raw materials are defined as residuals, pollutants and contaminants derived from the production of the raw materials which are present in the final product/chemical compound in amounts less than 100 ppm ( 0.0100 wt % , 100 mg/kg ), but not substances added to the raw materials or product intentionally and with a purpose – regardless of amount. Residuals in the raw materials above 1.0 % are regarded as ingoing substances. Known substances realised from the raw materials are also regarded as ingoing substances.

The declarations shall be made to the best of your knowledge and according to the knowledge held at this time, based on tests and/or declarations from raw materials producers/suppliers. Reservations are made for any developments and new knowledge. If such new knowledge arises, the signatory is obliged to submit an updated declaration to Nordic Ecolabelling.

If the information concerning the composition of the raw materials is confidential, the information can be sent directly to the environmental labelling organisation.

### **Ingoing substances:**

Does the raw material contain substances from the EU's priority list of substances that must be examined further for hormone-disturbing effects in category 1 or 2? Yes ☐ No ☐

If yes, please specify what substances and quantity (weight%): \_\_\_\_\_

Does the product contain substances on the EU's candidate list under REACH 1907/2006/EC article 59.10? Yes ☐ No ☐

If yes, please specify what substances and quantity (weight%): \_\_\_\_\_

Does the raw material contain perfume, aroma or other aroma compounds (e.g. essential oils, plant oils and plant extracts)? Yes ☐ No ☐

Signature of the raw material producer/supplier:

Date:	Company name:
Person responsible:	Telephone:
